Copy selected node

Version 1.0.1, by Giorgio Bianchini

Description: Copies the selected node to the clipboard.

Module type: SelectionAction

Module ID: `debd9130-8451-4413-88f0-6357ec817021`

This module copies the currently selected node to the clipboard in Newick-with-attributes format. The node can then be pasted e.g. in a text editor or in another tree viewer progam. It can also be used to copy to the clipboard the value of an attribute from the selected tips or from all the selected nodes.
