◁ Collapse selection

Version 1.0.1, by Giorgio Bianchini

Description: Collapses the selected node.

Module type: SelectionAction

Module ID: `e149aeb6-a019-41e2-8830-e4dc3e0eee43`

This module is used to apply the *Collapse node* Further transformation to the selected node. If this transformation has already been applied to the selected node, it is removed. This action is only available if the selected node is not a terminal node.

Note: using this module without installing also the *Collapse node* module (id `3812314b-e821-4399-abfd-2a929a7a7d80`) may lead to program crashes or unexpected results.
